

## Speak Up for your Library!

Sign up to receive a monthly email update on library issues and occasional alerts about legislation affecting libraries. You'll be provided with information and perspectives about those issues and will be urged to call, write or email lawmakers on significant issues of interest.

Your comments to elected officials can make a difference. Legislators have commented that most issues draw few comments and that as few as a half-dozen calls, letters, or emails from constituents can influence their decision making.

By signing up, you'll be providing us the opportunity to quickly notify you about issues that develop so you can take action if you choose. This effective form of communication also helps hold down expenses.

If you sign up you will, of course, also be able to request removal from the program's database. This is not a lifetime commitment, and we do not plan to overwhelm supporters with material. The information you give us will be treated with the highest level of confidentiality that libraries are known for.

*Just fill out this form and give it to your library director or sign-up online at:*
